“Two years ago I have received training from John Thomas who owns ATEX Freight Broker training out of Texas. Anyone interested in transportation brokering, this is your go to guy”.

Start-Up Steps

You will need a separate company for the brokerage (LLC, C Corp, Sole Prop.). We can help get set up to some extent. You may not need an attorney. If you are unable to get a business registered and get your EIN before class, we can do these after class via telephone and Internet. Do this now - find a name that’s available, register the business, get your EIN.
